

Senior Software Engineer – API

BW SOFTWARE US CORP

Overview

BW SOFTWARE US CORP is building technology solutions supporting operational systems, modernization initiatives, analytics, and enterprise environments across infrastructure and public-sector ecosystems. We are seeking experienced backend engineers passionate about scalable APIs, systems integration, and reliable service-oriented architectures.

What You'll Do

- Design, build, and maintain scalable APIs and backend services
- Develop integrations across enterprise and operational systems
- Improve system reliability, performance, and maintainability
- Support reporting, analytics, and workflow-driven applications
- Collaborate with frontend engineers, QA engineers, and project teams
- Participate in architecture discussions and technical planning

Preferred Qualifications

- Strong backend engineering experience with modern programming languages and frameworks
- Experience building RESTful APIs and distributed services
- Experience with technologies such as Node.js and TypeScript
- Familiarity with SQL and NoSQL databases
- Experience with cloud platforms such as AWS, Azure, or GCP
- Understanding of systems integration and operational workflows
- Strong problem-solving and communication skills

Eligibility

- U.S. Citizens, Green Card holders

Engagement

- Contract / Project-Based
- Location: Seattle, WA (Onsite Preferred)
- Hourly Range: \$70–\$80/hr depending on experience
